THE ROAD TO WALL STREET

A significant number of Rutgers alumni work on Wall Street. To help future generations of Rutgers graduates get a foot in the door of major brokerages and banks, some of these alumni participate in the Road to Wall Street program. The program, which offers current students an exciting and valuable mentoring opportunity, is designed to explore and demystify the many career options within Wall Street and the financial services industry.

- Students are paired with a Wall Street employer through a competitive interview matching process.
- Students visit various employment organizations on Wall Street to get a glimpse of a “day in the life” of a Wall Street professional.
- Students have ongoing communications with a Wall Street mentor to gain valuable insight and to learn how to compete for internships and/or other possible employment opportunities.
